

*SPECIFICATION AMENDMENTS*

Replace the paragraph beginning at page 26, line 7 with:

The intersection between the third light 7c emitted from the illuminant 1a and the reflection surface of the extended infinitesimal mirror 1b-2 is defined as the position of the third infinitesimal mirror 1b-3. The angle of the infinitesimal mirror 1b-3 is determined so that the light ~~7b~~ 7c is reflected at the infinitesimal mirror 1b-3 to the intersection ~~Q2~~ Q3.
